Subject RE: Need a meeting with SCA next week (week of August 8)

Abe,

I am in the office today if you want to talk. Frankly, the greatest issues seem to be around the general quality of your work. You will be getting some specific feedback from Reid shortly on the Subpart W information. (b)(5) - Deliberative Process Privilege

The conference call we had a couple of weeks ago underscored some of the problems.

And a big concern for me is that we have been paying for substandard results. It may be that it is primarily the uranium issue and not across the board, but that remains to be seen.

I won't physically be here next week, but I will call in. I do not want to delay a group discussion on this.
